Subject Re: Waters of U.S. communications planning

I don't think we are going to deviate from the traditional SAB process so the report would go out for public comment like 60 days before the panel convenes, which should be two months after the first FRN - so maybe first days of April. Our general education, as John and Damaris said, and Matt pointed out as a good idea, won't start until that FRN goes in the a couple weeks.

Thanks for paying attention to the details!!!
